

# CUSUMANO

## WINE LIST 2026

This family owned winery is owned by brothers Diego and Alberto Cusumano.

They own vineyards spread across several regions of Sicily.

The estate is considered one of the most influential wineries on the island. Cusumano works according to the concept of terroir, believing that each grape variety has an ideal location and exposure within Sicily. For example, the Nerello Mascalese grape thrives on the slopes of Mount Etna. Cusumano wines are consistently well represented in the renowned Italian wine guide Gambero Rosso and all the professional Wine press awards.

Wine
